10x Salesforce Certified • 3 Years Experience • Agentforce Specialist • Platform Developer II

PROFESSIONAL SUMMARY

Results-driven Salesforce Application Engineer with **3+ years** of hands-on experience (including internship) designing, developing, and deploying enterprise CRM solutions. Proficient in Apex, Triggers, LWC, Visualforce, and Aura with deep expertise across Sales Cloud, Service Cloud, Experience Cloud, Automotive Cloud, Financial Cloud, and Public Sector Solutions. 10x Salesforce Certified, including Agentforce Specialist and Platform Developer II. Proven ability to partner with cross-functional teams to build scalable, modular, and well-tested Salesforce applications that improve sales processes, enhance customer satisfaction, and drive operational efficiency.

WORK EXPERIENCE

Salesforce Developer (Managed Services) | Adapt IQ

Jan 2025 – Present

- Serve as a managed service developer across virtually all Salesforce domains including Sales Cloud, Service Cloud, Experience Cloud, Automotive Cloud, and Financial Cloud, delivering end-to-end CRM solutions for diverse enterprise clients.
- Develop and deploy Salesforce applications using Apex, Triggers, LWC, Visualforce, Aura, Flow, and standard configuration (formula fields, validation rules) — maintaining clean, modular, and self-sustaining code.
- Partner with engineering, business, and stakeholder teams to gather requirements, define technical design, and implement integrated CRM platform solutions aligned with business domain needs.
- Write and execute test automation, perform issue identification and resolution, and maintain technical documentation to support ongoing maintenance and continuous improvement.

CLIENT ENGAGEMENTS

- Western Union — Designed and built Aura and LWC solutions to support Western Union's business processes and customer-facing operations on the Salesforce platform.
- BYD (Automotive) — Built an invoice management structure leveraging Automotive Cloud to streamline vehicle sales billing and financial documentation workflows.
- Affordable Arts — Developed a custom LWC drag-and-drop component for an arts fair platform, enabling intuitive layout design and placement management for exhibitors.
- Eloit Partnership — Designed a custom LWC component to capture skills data for each contact record, integrated with their external HR/hiring system via Salesforce API.
- PHC (Policy Health Corp) — Performed targeted bug-fixing and issue resolution on a Policy Insurance platform, ensuring data accuracy and process reliability.
- Majenta — Built an AWS-Salesforce integration to synchronize data between cloud systems, enabling seamless cross-platform workflows and real-time data exchange.

Salesforce Developer | Value Health Inc

Nov 2023 – Dec 2024 (1 year 1 month)

- Developed and deployed Salesforce Health Cloud solutions to improve patient data management and clinical workflows, achieving a 40% increase in customer satisfaction through process automation.
- Implemented Lightning Web Components (LWC) and Experience Cloud to build patient-facing and internal portals enhancing accessibility and engagement.
- Built Apex classes, Triggers, and Flow automations to support complex health domain business logic, working within a cross-functional team of developers and business analysts.
- **Adding digital signature to customer records using Visualforce and LWC** — Worked on live project:
- Built dynamic PDF generation tool capturing user input via LWC forms and tables for clinical documentation.
- Implemented Library Management System using Screen Flow and Trigger Flow to automate record processing and approvals.

- Presented findings and project documentation to stakeholders; contributed to BI reporting initiatives for data-driven decision-making.

Junior Associate (Internship) | Adapt IQ

Aug 2022 – Aug 2023 (1 year)

- Completed an intensive Salesforce internship gaining foundational experience in Salesforce platform development, configuration, and project delivery.
- Developed functional and technical application documents supporting development lifecycle and knowledge transfer.
- Assisted in development of new product features contributing to increased revenue outcomes.
- Delivered key project presentations outlining findings and recommendations to internal stakeholders.
